

THE FRED D. PFENING COMPANY
DEDICATED TO THE BAKING
INDUSTRY SINCE 1919
BULK BAG UNLOADER
FORK LIFT TYPE

The Pfening Bulk Bag Unloader automatically discharges bulk bags. The material may be fed into an air conveying system or a mechanical feeder. A fork truck is used for lifting the bags into position.

The Bulk Bag Unloader Includes:

- Sanitary design built to ANSI Z.50/BISSC standards.
- Heavy-duty frame for strength and rigidity.
- Bag hanger frame with adjustable height supports.
- Air-operated bag flexing paddles to facilitate flow.
- Large diameter 16" discharge tube with dust tight access door for opening and closing bags.
- Full size 15" iris valve for closing off bag spouts with manual operator.
- Customized discharge hopper with connection to screw feeder, vacuum or pressure air conveyor, or other system.
- Optional load cells available.
