

THE FRED D. PFENING COMPANY
DEDICATED TO THE BAKING
INDUSTRY SINCE 1919
**MODEL 1000
FERMENTATION ROOM**

Pfening Fermentation Rooms Feature...

- Rugged non-corrosive aluminum structural frame.
- Sealed panels finished in natural aluminum, white enameled aluminum, and stainless steel
- Double-acting-double-swinging manual doors or bi-parting sliding doors with air operators
- Pfening Model B Digital Controller accurate to within 1/2% for both temperature and relative humidity
- Air-pressure dripless atomization of water provides humidification independent of heating or cooling requirements without using high-maintenance pumps, sumps and spray banks
- Either Dry (steam injected) or Wet (air wash) conditioning units
- Any size or configuration to meet your production requirements.
- Special designs to meet your individual needs.
- BISCC Approved

Gentle air movement eliminates "crusting" but maintains even temperatures and humidity throughout the room at all times.
